

Usama Aleem

Larval WEB DEVELOPER

PERSONAL PROFILE

An innovative and skilled web developer with 1 year of hands-on experience in PHP Laravel-based website development. Proficient in crafting layouts and coding for dynamic websites using PHP Laravel. Committed to delivering high-quality, user-friendly websites that consistently exceed client expectations. Actively seeking opportunities to expand knowledge and stay updated with the latest web development trends for delivering exceptional project outcomes.

WORK EXPERIENCE

VirtueNetz Rahim YAR KHAN

I completed a 3-month internship in PHP Laravel at VirtueNetz and was subsequently hired as a Junior Laravel Developer, where I worked for 6 months. In this role, I collaboratively developed and maintained web applications with the team, creating impactful digital solutions. My unwavering dedication to continuous learning and enhancing my Laravel development skills has been pivotal in delivering high-quality code and contributing to the company's success..

Project 1:

E-Commerce website

National College Of Business Administration & Economics

Rahim Yar Khan | August 2021- Sep 2021

- Technologies used: HTML, CSS, Bootstrap JavaScript, PHP Laravel, and MySQL.
- Developed a professional e-commerce website for my final year project, showcasing a wide range of products and implementing secure payment gateways. Demonstrated effective project management skills to ensure timely delivery and high-quality outcomes.

Project 2:

Load Mate Application

Virtue Netz Rahim Yar Khan

- Technologies used: HTML, CSS, Bootstrap JavaScript, PHP Laravel, MySQL, and Flutter.
- Led the development of Load Mate—an advanced heavy-wheeled truck booking platform.
- Designed the database and crafted robust authentication and add truck APIs.
- Oversaw the efficient management of the admin panel to facilitate seamless operations..

Project 3:

Handyman Application

Virtue Netz Rahim Yar Khan

- Technologies used: HTML, CSS, Bootstrap JavaScript, PHP Laravel, MySQL, and Flutter.
- Developed APIs for task posting, user assignment, and user authentication in the multi-skills service application.
- Managed the admin dashboard and successfully resolved issues in both APIs and dashboard functionality.
